Application No. 10/684,023	:	PATENT TERM ADJUSTMENT
Filed: October 10, 2003	:	
Attorney Dkt. No. 29471.4	:	
For: SYSTEM AND METHOD FOR	:	
ASSESSMENT OF HEALTH RISKS AND	:	
VISUALIZATION OF WEIGHT LOSS	:	
AND MUSCLE GAIN	:	

This is in response to the "APPLICATION FOR PATENT TERM ADJUSTMENT" filed April 20, 2010. This application is properly treated under 37 CFR 1.705(b). Applicants request that the determination of patent term adjustment be corrected from eight hundred fifty-three (853) days to one thousand three hundred forty-two (1,342) days.

As the instant application for patent term adjustment requests reconsideration of the patent term adjustment as it relates to the Office's failure to issue the patent within 3 years of the filing date, the application for patent term adjustment under 37 CFR 1.705(b) is **DISMISSED as PREMATURE**.

The Office acknowledges submission of the \$200.00 fee set forth in 37 CFR 1.18(e) for consideration of the application for patent term adjustment under 37 CFR 1.705(b). The fee set forth in 37 CFR 1.18(e) is required and will not be refunded.

Knowledge of the actual date the patent issues is required to calculate the amount, if any, of additional patent term patentee is entitled to for Office failure to issue the patent within 3 years. See § 1.702(b). (This is true even where a request for continued examination (RCE) was filed). The computer will not undertake the § 1.702(b) calculation until the actual date of

issuance of the patent has been determined. Likewise, the computer will not calculate any further Office delay under § 1.702(a)(4) or applicant delay under § 1.704(c)(10) until the actual date of issuance of the patent has been determined. As such, the Office cannot make a determination on the correctness of the patent term adjustment until the patent has issued.

Requesting reconsideration of the patent term adjustment to be indicated on the patent under 37 CFR 1.705(b) based on the initial determination of patent term adjustment and a projected issuance date of the patent (or even the filing date of the request for continued examination) is premature. Accordingly, it is appropriate to dismiss as premature such a request.

Rather than file an application for patent term adjustment under 37 CFR 1.705(b) contesting the 37 CFR 1.702(b) calculation at the time of the mailing of the notice of allowance, applicant is advised that they may wait until the time of the issuance of the patent and file a request for reconsideration of the patent term adjustment pursuant to 37 CFR 1.705(d). As the USPTO does not calculate the amount of time earned pursuant to 37 CFR 1.702(b) until the time of the issuance of the patent, the Office will consider any request for reconsideration of the patent term adjustment due to an error in the calculation of 37 CFR 1.702(b) to be timely if the request for reconsideration is filed within two months of the issuance of the patent. However, as to all other bases for contesting the initial determination of patent term adjustment received with the notice of allowance, applicant must timely file an application for patent term adjustment prior to the payment of the issue fee<sup>1</sup>.

---

<sup>1</sup> For example, if applicant disputes both the calculation of patent term adjustment under 37 CFR 1.702(a)(1) for Office failure to mail a first Office action or notice of allowance not later than fourteen months after the date on which the application was filed and under 37 CFR 1.702(b) for Office failure to issue a patent within three years of the actual filing date of the application, then applicant must still timely file an application for patent term adjustment prior to the payment of the issue fee to contest the calculation of Office delay in issuing a first Office action or notice of allowance. See 37 CFR 1.705(b) and 35 U.S.C. 154(b)(3)(B). A dispute as to the calculation of the §1.702(a)(1) period raised on request for reconsideration of patent term adjustment under 37 CFR 1.705(d) will be dismissed as untimely filed.

To the extent that applicant otherwise requests reconsideration of the patent term adjustment at the time of the mailing of the notice of allowance, the application for patent term adjustment is GRANTED to the extent indicated herein.

On January 20, 2010, the Office mailed the Determination of Patent Term Adjustment under 35 U.S.C. 154(b) in the above-identified application. The Notice stated that the patent term adjustment to date is 853 days. The instant application for patent term adjustment was timely filed on April 20, 2010.

Applicants contend that the adjustment pursuant to 37 CFR 1.703(a)(1) should be 1056 days as the first Office action was mailed on November 1, 2007.

Applicants' argument has been considered and has been determined to be persuasive. The Office action mailed on April 12, 2007 was mailed to the incorrect address, as the change of address submitted on November 15, 2004 was not entered. Thus, the adjustment pursuant to 37 CFR 1.703(a)(1) is 1056 days. The calculation is based upon the number of days, if any, in the period beginning on the day after the date that is fourteen months after the date on which the application was filed under 35 U.S.C. 111(a) or fulfilled the requirements of 35 U.S.C. 371 December 11, 2004 and ending on the November 1, 2007 date of mailing of either an action under 35 U.S.C. 132, or a notice of allowance under 35 U.S.C. 151, whichever occurs first

In view thereof, the correct determination of PTA at the time of the mailing of the notice of allowance is one thousand fifty-six (1,056) days

Any request for reconsideration of the patent term adjustment indicated on the patent must be timely filed within 2 months after issuance pursuant to 37 CFR 1.705(d) and **must** include payment of the required fee under 37 CFR 1.18(e).

The Office of Data Management has been advised of this decision. This application is being referred to the Office of Data Management for issuance of the patent.
